Lake Gregory Parking Lot Plans Approved

SAN BERNARDINO - Lake Gregory Regional Park visitors will have a smoother parking lot and more parking spaces once a project approved by the Board of Supervisors on Tuesday is completed.

The plans approved by the board call for repairing a deteriorated section of the parking lot as well as paving and striping a dirt area where visitors already park. The project will add more than 70 parking spaces near the baseball fields and the start of the soon-to-be-completed Outer Lake Gregory Trail.

In addition, a new driveway will provide easier access to the main entrance of the historic San Moritz Lodge, which is used regularly for senior lunches and other community events.

"Lake Gregory Regional Park is a treasure in the mountain communities, and we have to provide ample parking for people to enjoy the park and all of its amenities," Second District Supervisor Paul Biane said.

The Board's approval means the County can seek competitive bids for the parking lot project. Construction is expected to begin in the fall.
